For 20 years this standard work of the wind-industry has grown. Updated annually, the latest edition will be published with the title "Directory of Wind Energy 2018" in November 2017. It includes the data of people and companies both at home and abroad. It lists project planners, financial services providers as well as legal advisors. The directory is bilingual (German and English) and provides indispensable information to many investors and operators.

Date of publication: November 3rd, 2017

Closing date: October 2nd, 2017
