For 21 years this standard work of the wind-industry has grown. Updated annually, the latest edition will be published with the title "Directory of Wind Energy 2019" in November 2018. It includes the data of people and companies both at home and abroad. It lists project planners, financial services providers as well as legal advisors. The directory is bilingual (German and English) and provides indispensable information to many investors and operators.

**Date of publication: November 2018**

**Closing date: October 9<sup>th</sup>, 2018**
